## INSTITUTIONAL INFORMATION FOR REVIEWERS

### **Directions:**

*Please address the following and attach the information to this form.*

### **1. History and Characteristics**

Provide a brief history of the institution, a description of its current mission, an indication of its geographic service area, and a description of the composition of the student population. Include a description of any unusual or distinctive features of the institution and a description of the admissions policies (open, selective, etc.). If appropriate, indicate those institutions that are considered peers. Please limit this section to one-half page.

James Sprunt Community College (JSCC) holds the distinction of being the only North Carolina Community College named after a historic individual, Dr. James Menzie Sprunt. Dr. Sprunt was a Scottish Presbyterian minister who immigrated to America and settled in the Duplin County area. He highly valued education and started a local seminary that later became known as Grove Academy. In 1960, the James Sprunt Institute opened as a division of the Goldsboro Industrial Education Center, the first extension unit of North Carolina's rapidly growing system of industrial education centers. On March 12, 1964, the County Board of Commissioners and the County Board of Education voted to expand the unit that had been operating as a branch of Wayne Technical Institute and re-named it James Sprunt Institute. JSCC became a separate institution in September 1967. JSCC was initially accredited by the Southern Association of Colleges and Schools Commission on Colleges in 1973 and has maintained accreditation ever since.

JSCC is located in Kenansville, North Carolina and its primary service area is Duplin County. James Sprunt Community College's mission is to "respond to the individualized educational and workforce development needs of the community by increasing accessibility, providing innovative teaching, and expanding community partnerships. Responding to the educational and workforce needs of the community is demonstrated by the College's open-door admissions policy. Individuals who are 18 years old or older and able to benefit from the programs offered, or a high school graduate under 18, may be admitted to the College. Individuals under 18 years of age who have not graduated from high school can attend the College according to the policies of the State Board of Community Colleges.

Duplin County, the service area of JSCC, is the ninth largest county in North Carolina, and its economy is primarily agriculturally based. Serving a land area of 816 square miles allows JSCC to greatly impact educational opportunities and the workforce in the County and Eastern North Carolina. During the 2023-2024 academic year, JSCC served approximately 4,676 unduplicated Curriculum and Continuing Education students. Of those, approximately 45% were classified as white, 26% as black, 27% as Hispanic, approximately 1% Multiple race/ethnicity, and approximately 1% American Indian/Alaskan or Asian. Additionally, 67% of 2023-2024's enrollment resided in JSCC's service area. According to the North Carolina Community College System, JSCC ranked 49th in unduplicated headcount among the 58 North Carolina community colleges in 2023-2024. JSCC considers its closest peer Southeastern Community College due to its location in Eastern North Carolina and comparable annual curriculum enrollment.

The College is committed to student success and offers 26 associate degree programs, 16 diploma programs, 58 certificate programs, and 5 Career and College Promise Pathways. JSCC is well recognized for its continuing education and college transfer programs, and for its collaborative partnership with Duplin County Schools.

### Non-Credit Programs

In addition to curriculum program offerings, James Sprunt Community College (JSCC) offers non-credit English Language Acquisition (ELA) classes. These classes focus on conversation, grammar and writing instruction, reading comprehension, civics, and employability skills.

The table below indicates the progression of students served by ELA. Student progress is measured by pre- and post-test scores using an evaluation process through the North Carolina Community College System (NCCCS) called Measurable Skills Gain (MSG). The pre- and post-test assessments that the College uses is the Comprehensive Adult Student Assessment Systems (CASAS), which is an approved assessment to use for performance-based measurement with the NCCCS and this population of students. When a student scores high enough on an approved post-test to place into a higher educational functioning level than the student's pre-test, the student achieves an MSG. Students who complete ELA courses and subsequently enroll in post-secondary education within the same academic year are also able to achieve an MSG. The table below shows the most recently reported and verified performance data.

ELA Student Progress July 1, 2022 - June 30, 2023 (Academic Year)	
124	Number of Students Served
40	Number of Students Demonstrating Progress (MSG)
0	Number of Students Demonstrating Progress (MSG - Postsecondary Education)
32.3%	Students Demonstrating Progress

### 3. Off-Campus Instructional Locations and Branch Campuses

List *all approved off-campus instructional locations* where 25% or more credit hours toward a degree, diploma, or certificate can be obtained primarily through traditional classroom instruction. Report those locations in accord with the Commission’s definitions and the directions as specified below.

**Table 1: Off-campus instructional sites**—a site located geographically apart from the main campus at which the institution offers 50 % or more of its credit hours for a diploma, certificate, or degree. This includes high schools where courses are offered as part of dual enrollment. For each site, provide the information below. **The list should include only those sites reported to and approved by SACSCOC.** Listing unapproved sites below does not constitute reporting them to SACSCOC. In such cases when an institution has initiated an off-campus instructional site as described above without prior approval by SACSCOC, a prospectus for approval should be submitted immediately to SACSCOC.

Name of Site	Physical Address (street, city, state, country) Do not include PO Boxes.	Date of SACSCOC approval letter	Date Implemented by the institution	Educational programs offered (specific degrees, certificates, diplomas) with 50% or more credits hours offered at each site	Is the site currently active? (At any time during the past 5 years, have students been enrolled and courses offered? If not, indicate the date of most recent activity.)

*Note:* James Kenan High School (1241 NC Highway 24/50 Warsaw, NC 28398) is an off-campus instructional site with Notification 25-49% type. At this time, the credit hours offered at James Kenan High School constitute <25% of any diploma, certificate, or degree. Consequently, James Kenan High School does not appear on Table 2.

**Table 3: Branch campus**—an instructional site located geographically apart and independent of the main campus of the institution. A location is independent of the main campus if the location is (1) permanent in nature, (2) offers courses in educational programs leading to a degree, certificate, or other recognized educational credential, (3) has its own faculty and administrative or supervisory organization, and (4) has its own budgetary and hiring authority. **The list should include only those branch campuses reported to and approved by SACSCOC.** Listing unapproved branch campuses below does not constitute reporting them to SACSCOC. A prospectus for an unapproved branch campus should be submitted immediately to SACSCOC.

James Sprunt Community College does not operate branch campuses.

#### 4. Distance and Correspondence Education

Provide an initial date of approval for your institution to offer distance education. Provide a list of credit-bearing educational programs (degrees, certificates, and diplomas) where 50% or more of the credit hours are delivered through distance education modes. For each educational program, indicate whether the program is delivered using synchronous or asynchronous technology, or both. For each educational program that uses distance education technology to deliver the program at a specific site (e.g., a synchronous program using interactive videoconferencing), indicate the program offered at each location where students receive the transmitted program. Please limit this description to one page, if possible.
